Summary

Adaptable Software Developer passionate about mathematical logic and hands-on problem-solving. Experienced in architecting secure, high-traffic systems, featuring real-time collision-free logic. Certified in AI Essentials, demonstrating agility in dynamic environments. Seeking to leverage technical expertise and process automation skills as an Intern.

Skills

- **Languages:** SQL, JavaScript, TypeScript, Python, Kotlin, Java, Golang
- **Frameworks & Technologies:** Node.js, React, Next.js, WordPress, Git/GitHub, MongoDB
- **Core Competencies:** AI Essentials, System Architecture, Process Automation

Experience

TRUSTPEAK PROPERTIES | Software Developer Consultant

MAY 2025 - MAY 2026, NAIROBI

- Streamlined organizational workflows and infrastructure by delivering expert technical guidance and custom programming solutions.

JIJIFEST LTD | Web Developer Intern

MARCH 2024 - MARCH 2025, NAIROBI

- Built responsive, high-performance e-commerce sites using React and WordPress, ensuring cross-device compatibility and usability.
- Managed client training, ongoing website maintenance, and technical troubleshooting for diverse industry partners.

AIESEC IN KU | Education Manager

JANUARY 2023 - JANUARY 2024, NAIROBI

- Led the design and implementation of curriculum-aligned educational programs, evaluating impact for continuous improvement.

Education

Kenyatta University | Bachelor of Science in Computer Science

2021-2026, NAIROBI

Google Cloud Platform | Associate Cloud Engineer Certificate

PRESENT, NAIROBI

Moringa School | Certificate in AI Essentials For Software Developers Program

MARCH 2026, NAIROBI

Kenyatta University | Certificate in Proficiency in Chinese Language

2020, NAIROBI

Projects & Technical Engagement

VENUEASE PLATFORM | Full-Stack Lead

- Led full-stack development of a booking system with complex database constraints and real-time synchronization logic.

KOOD/NAIROBI | Selection Sprint Participant

JULY 2026, NAIROBI

- Solved advanced algorithmic challenges during an intensive three-week collaborative development sprint.

DIGITAL EXPLORER | Hackathon Competitor

NAIROBI

- Prototyped innovative software solutions under tight hackathon deadlines, focusing on rapid deployment and architecture.
